**ECOLOGY AND EVOLUTION:
NEW CHALLENGES**

dedicated to the celebration of the 100th anniversary
of RAS Academician S.S. Shwartz

April 1–5, 2019, Ekaterinburg, Russia

First Circular

Dear colleagues,

The Institute of Plant and Animal Ecology UB RAS invites you to participate in the International Scientific Symposium [Ecology and evolution: New challenges](#) dedicated to the celebration of 100th anniversary of RAS Academician S.S. Shwartz, which will be held in Ekaterinburg, Russia, **April 1–5, 2019**.

The Symposium is aimed at facilitating discussions among its participants around issues associated with the organization, functioning, dynamics and sustainability of living systems at superorganismic levels (populations, communities, ecosystems) in diverse environmental gradients.

Stanislav Semenovich Shwartz (1919-1976) was a prominent Russian ecologist whose contribution to the field of population and evolutionary ecology is hard to overestimate. S.S. Shwartz is deservedly regarded as the founder of the Ural ecological scientific school. From 1955 to 1976 he headed the Institute of Plant and Animal Ecology. One of his remarkable achievements was the Russian Journal of Ecology, which he established in 1970. S.S. Shwartz was awarded a number of state civilian decorations and awards, including A.N. Severtsov' Award.

SYMPOSIUM TOPICS:

1. Population ecology
2. Evolutionary ecology
3. Ecological morphology and ecophysiology
4. Ecological genetics and phylogeography
5. Historical ecology and paleoecology
6. Radiation ecology and ecotoxicology
7. Ecology of communities and phylocoenogenetics

SYMPOSIUM RULES

The Organizing Committee reserves the right to reject applications that do not meet its selection criteria or do not fall into the scope of the Symposium.

Forms of participation: oral report or poster.

The Symposium proceedings are planned to be published towards the beginning of the event.
